

Activity 31

“Sports Match”

Goal: enhance group cohesion

Half of the group goes to the “red corner”, the other half goes to the “blue corner”.

Each group chooses one student who enters the middle of the pitch.
The following match has three rounds. The teacher is the referee.

1st round:

The first student from each team starts debating against each other.

Teacher rings the bell after some minutes and sends the two debaters back into their corners where the classmates coach their debater with new ideas for the next round.

After three short rounds, each debate team sends another student out to the pitch. She will be coached in the same way by her own group.
