

Activity 34

“Conducting Interviews For Debate Preparation”

Goals: Understand the importance of a broad debate preparation /
spread the idea of debating at home/at school

Students are asked to conduct interviews as homework
with a certain group of the community (parents, students, teachers)
about their opinion on a certain debate topic:
asking for reasons and examples and writing them down.

They write down whom they interviewed (age, gender) without mentioning
the names of the interviewees.
