

## Activity 27

### “Zigzag – Debate”

Goals: build on each other / strengthened team responsibility

Two teams sit on a long table, students of one position on one side of the table, students of the other position on the other side.

Students take turns with the students of the other side in a zigzag-order to argue and give counterarguments.

Example:

Student 1: “I say... because ... my evidence is...”

Student 2: “You say that... I disagree because ... I want to give you another argument: I say ... (and so on)”

Each student has to present a NEW argument for her position.
